

Three-Tab Book

1. Fold a sheet of paper like a hot dog.
2. With the paper horizontal, and the fold of the hot dog up, fold the right side toward the center, trying to cover one half of the paper.
3. Fold the left side over the right side to make a book with three folds.
4. Open the folded book. Place your hands between the two thicknesses of paper and cut up the two valleys on one side only. This will form three tabs.

Use this book for data occurring in threes, and for two-part Venn diagrams.
